

Our List of Services

CREATIVE WEBSITES

We make websites according to the customers demand including E-commerce site, Media server, Blog site, Portfolio etc.

PENTESTING

We help our customers finding bugs and vulnerabilities in their server and websites that can be used to hack that particular system. Also, we patch that vulnerability to stay safe from hackers.

24-hour Hotline

A network can get down anytime for various reasons. We provide 24/7 support for network related issues.

About Us

We are three of cousin brothers running this farm. Atul Josim, our leader, running the network and client parts. I and my other brother are running the server and website part. Since 2019, we've deployed more than hundred sites.
